This is all about what made Marlborough Sauvignon Blanc famous!

Production

Grown on a variety of soil types - gravels which provide tropical flavours, clay loams produce citrus notes, and deep silty soils lift the aromatic quality. Fermented in stainless steel tanks to retain the natural fruit characters.

Tasting note

The Cellar Selection Sauvignon Blanc has really expressive, tangy grapefruit, and tropical papaya and guava fruit. A zingy finish, generous mouth feel and impeccable balance.

Food Match

Try with a goat's cheese and sunblush tomato tart!
